### Liner Type

<b>FRASLIP T</b>
------------------

### Description

Fabric	Support fabric of high strength, non fluid absorbing fibers
Self Lub. Treatment	Woven-in PTFE fibers
Thickness of Liner	0.25 mm (0.01") ref.
Adhesive	polyimide resin

### Engineering Data

Static Limit Load	~276 N/mm <sup>2</sup> (40,000 psi)
Dynamic Limit Load	~138 N/mm <sup>2</sup> (20,000 psi)
Temperature Range	-53°C to +315°C (-65°F to 600°F) +350°C (675°F for short duration)
Surface speed max.	~150 mm/sec. (30 ft/min)
Coefficient of Friction	0.04 - 0.1 depending on operation conditions and temp.

### Application

Suitable for high temperature and/or high speed applications at medium loads.
